

Relaxure

Relaxure Outdoor Infrared Heater - Technical Sheet

Product Overview

Model	RH-25B
Application	Outdoor Heating – Pergola / Patio / Balcony / Garden
Installation Type	Wall-mounted
Certification	ETL Certified (North America)
Waterproof Rating	IP65 (Dustproof & Waterproof)

Key Features

Smart Control System	Integrated with WiFi APP, touch screen, and remote control Adjust heat and timing remotely and conveniently
Durable Outdoor Design	Rust-resistant aluminum alloy housing ensures long-term reliability in outdoor environments
9-Level Heat Adjustment	Customizable output (P0 – P9) for various heating preferences
24-Hour Timer	Schedule heating in advance—even when you're not home
Power Output	2500W heating capacity, ensuring rapid and consistent heat distribution
Gold Carbon Fiber Heating Tube	Long lifespan (5000–10000 hours) with efficient thermal output
X-Tech Tempered Glass Screen	Minimizes red glare, ensures 360° radiant heat and high efficiency
Adjustable Angle	Heating direction adjustable from 0–30° for targeted comfort
Advanced Safety Protections	Automatic shut-off for overheating and tilt scenarios; safe for residential and commercial use
Heating Coverage	Effective range of 10–15 m ² (approx. 108–160 ft ²), ideal for 2–4 person seating areas

Technical Specifications

Parameter	Description
Model	RH-25B
Voltage	120–240V
Power Output	2500W
Heat Settings	9 Levels (P0–P9)
Timer Function	0–24 Hours
Waterproof Rating	IP65 Dustproof & Waterproof
Heating Tube	Gold Carbon Fiber Tube

Parameter	Description
Housing Material	Anti-Corrosion Aluminum Alloy
Control Methods	App / Touch Screen / Remote
Mounting Type	Wall-Mounted
Angle Adjustment	0–90°
Certification	ETL (North America)
Lifespan	5000–10000 hours
Heating Coverage	10–15 m ² (approx. 108–160 ft ²)
